Opis produktu

STRENGTHENING SOOTHING AMPOULES
Intended for skin with dilated capillaries and skin requiring regeneration and hydration.
Due to the content of vitamins A and E, panthenol and Japanese pear oil extract, they show extraordinary smoothing and strengthening effects. They improve the flexibility and resistance of the walls of blood vessels, accelerate regeneration processes, strengthen and rebuild damaged skin hydrolipid coat.

Active substances:

panthenol
Panthenol, provitamin B5. Vitamin B is found in every living cell of the skin and hair. It has anti-inflammatory and antibacterial properties, accelerates epidermis regeneration processes. Gives the skin a smooth feeling. It is an ingredient with healing, soothing irritations and moisturizing. It easily penetrates deep into the skin, reduces water loss through the epidermis and effectively moisturizes the skin, giving it softness and elasticity. Helpful in healing wounds and minor skin damage as well as healing scars.

Sophora Japonica Bud Extract
Japanese pearweed extract contains up to 30% of routine, i.e. vitamin P. thanks to which it exhibits an amazing smoothing and strengthening effect. Accelerates regeneration processes, regulates lipid balance. Japanese slime extract improves the elasticity, resistance and strength of the walls of blood vessels.

Tocopheryl Acetate
Vitamin E with antioxidant activity, inhibits skin aging processes and radical oxidation of lipids in the epidermis and dermis. Rebuilds the natural epidermal barrier and effectively prevents irritation. It inhibits transepidermal water loss (TEWL) by improving skin hydration. It prevents the formation of inflammation, strengthens the walls of blood vessels and improves blood supply to the skin.

Retinyl Palmitate
Retinol - the basic form of vitamin A. It rejuvenates the skin, firms, brightens and regenerates the epidermis. It improves skin tone, brightens it, eliminates discoloration and smoothes. Firms the living skin layer, strengthens collagen fibers, thanks to which its elasticity is restored.

Usage:
The ampoules are intended for dermaroller, sonophoresis, ultrasound, needle-free mesotherapy and for external use on the skin in home care.
Apply to cleansed face, neck and cleavage.

Capacity: 10x3 ml
